Objective

I am a fourth-year Artificial Intelligence and Machine Learning Engineering student with a strong passion for software development and intelligent systems. Quick learner and problem solver, experienced in developing innovative projects with real-world applications. Eager to apply AI/ML knowledge and creativity to contribute to impactful solutions while continuously growing in the tech industry.

Education

Bachelor of Engineering AIML Alva's Institute of Engineering and Technology	CGPA: 7.3 2023 – Present
Class XII RNS PU College, Kundapura	88% 2023
Class X St Thomas Residential School, Byndoor	66% 2021

Skills

Programming skills: Python, SQL, Html, Css, MongoDB.

Tools: Google Colab, VSCode, NeetCode, GitHub, Excel, Render, Vercel, Antigravity.

Soft Skills: Leadership, Teamwork, Communication, Problem solving, Time management, Adaptability.

Language Skills

English, Kannada, Urdu, Hindi.

Projects

MindSafe AI – Suicidal Ideation Detection:

Built an NLP pipeline to detect suicidal ideation from Reddit and Twitter posts. Developed a hybrid model using Random Forest and Bidirectional LSTM. Performed preprocessing, feature engineering, and evaluation using Python and Scikit-learn

Thermal Image Recognition System:

Developed a real-time thermal object detection system using YOLOv8 and OpenCV. Enabled detection in low-visibility environments through optimized image processing

JARVIS – Desktop AI Voice Assistant:

Built a voice assistant with wake-word activation and API integration. Implemented multithreading for responsive execution.

Car Rental Management System:

Designed a normalized relational database schema for rental operations. Wrote optimized SQL queries for booking and customer management.

Certificates & Achievements

- Coursera: Certified in Introduction to Artificial Intelligence and Machine learning
- SAP Hackathon: Demonstrated problem solving, innovation, and teamwork skills during participation
- NPTEL: Python for Data Science

Extracurricular activities

- Gave training on python to high school students, boosting their technical and digital literacy
